The Deductive Detective is a modern fable from the international speaker and bestselling author on decision making, Ian Coombe. It is a story that describes a key strategy that can be used for making decisions and how it can help solve complex problems. The story brings the strategy to life in an engaging story that is easy to relate to because, like all of Ian's books, no family structure, gender or pet species have been identified leaving it to each individual to immerse themselves in the story by identifying their own personal circumstances. Children and adults alike love it. Especially since it can be read in 7 minutes we all can afford to read it while having our daily cuppa.
